

# THREE CARD POKER<sup>®</sup>

## *Rules of Play*

Three Card Poker Progressive with Six Card Bonus is an exciting stud poker game. You may bet against the dealer, bet on the value of your own three card hand, or bet both. Bonus payouts win for certain hands when wagering against the dealer.

Each player and dealer receives three cards facedown. Players then look at their cards and decide whether to fold (forfeit their Ante wager) or continue playing by placing a Play wager which must be equal to the Ante wager. The dealer must qualify with a Queen or better.

If the dealer doesn't have at least a Queen High, the Ante wager wins 1 to 1 and the Play wager is returned. If the dealer qualifies with a Queen High or better and if the player's hand beats the dealer's hand, the Play wager wins 1 to 1 and the Ante wager pays 1 to 1. In the event of a tie, the hand is a push.

### **Pair Plus**

Pair Plus is an optional bet that will win if your hand is on the posted pay table. If your hand contains a Pair or better, you win!

### **Ante**

Ante lets you play against the dealer's hand. It's just your cards against the dealer's. If you make an Ante bet and like your hand, you must place an equal wager on the Play spot. It's your three card poker hand against the dealer's three card poker hand, and the best hand wins!

### **TO PLAY PAIR PLUS AND ANTE**

It's you and your cards for a Pair or better and it's you against the dealer for the best three card poker hand. You must also make the Play wager or you will forfeit both the Pair Plus and Ante wagers.

## ANTE BONUS

If you make the Ante and Play wagers, you may win a Bonus payout even if the dealer doesn't qualify, and even if the dealer's hand beats your hand.

## SIX CARD BONUS OPTIONAL SIDE BET

You may make the optional six card bonus bet in addition to your standard three card poker wager and optional Progressive wager. This Bonus Side bet is based on the best five card poker hand that can be made from the six cards dealt to the dealer and player. Thus, each player uses his own three cards and combines them with the dealer's three cards. The player is eligible to win this wager even if he folds his Ante/Play wager. If the five card poker hand contains a three-of-a-kind or better, your six card Bonus bet wins.

## PROGRESSIVE PAYOUTS

The optional \$1 Progressive bet wins if you have either a Straight or better. See pay table for odds. If you receive an Ace-King-Queen of Spades, you win 100% of the Progressive jackpot.

## ENVY BONUSES

Players who place a \$1 Progressive wager can win Envy Bonus payouts if another player has a qualifying hand. See pay table for payouts. You can win multiple Envy Bonuses in a round, but you cannot win Envy Bonuses for your own hand or the dealer's hand.
